

## CLAIMS

What is claimed is:

- 1        1. A multi-surface towel, comprising:
  - 2              a first piece of material having an absorbent surface, the first piece of material
  - 3              forming a first side of the towel;
  - 4              a second piece of material having a surface suitable for polishing, the second
  - 5              piece of material comprising a portion of a second side of the towel; and
  - 6              a third piece of material having an abrasive surface, the third piece of
  - 7              material comprising a portion of the second side of the towel contiguous with the
  - 8              second piece of material.
- 1        2. The multi-surface towel of claim 1, further comprising an opening passing
- 2              through the first side of the towel, the opening contiguous with the second side of
- 3              the towel.
- 1        3. The multi-surface towel of claim 2, further comprising a reinforcer to support
- 2              the opening.
- 1        4. The multi-surface towel of claim 3, wherein the reinforcer is a grommet.
- 1        5. The multi-surface towel of claim 2, wherein an attachment means is passed
- 2              through the opening for attaching the towel to an object.
- 1        6. The multi-surface towel of claim 5, wherein the attachment means is a
- 2              carabiner.
- 1        7. The multi-surface towel of claim 1, wherein the first piece of material is terry
- 2              cloth.

1       8.     The multi-surface towel of claim 1, wherein the second piece of material is  
2     chamois.

1       9.     The multi-surface towel of claim 1, wherein the third piece of material is a  
2     scrubber pad.

1       10.    A towel, comprising:  
2              a first piece of material having an absorbent surface;  
3              a second piece of material coupled to the first piece of material, the second  
4     piece of material having a surface suitable for polishing; and  
5              a third piece of material coupled to the first and second piece of material; the  
6     third piece of material having an abrasive surface.

1       11.    The towel of claim 10, wherein the second piece of material and the third  
2     piece of material comprise a first side of the towel opposing a second side of the  
3     towel comprising the first piece of material.

1       12.    The towel of claim 10, wherein the first piece of material and the third piece  
2     of material comprise a first side of the towel opposing a second side of the towel  
3     comprising the second piece of material.

1       13.    The towel of claim 10, wherein the first piece of material and the second piece  
2     of material comprise a first side of the towel opposing a second side of the towel  
3     comprising the second piece of material.

1       14.    The towel of claim 10, wherein the first piece of material is terry cloth.

1       15.    The towel of claim 10, wherein the second piece of material is chamois.

- 1       16.     The towel of claim 10, wherein the third piece of material is a scrubber pad.
- 1       17.     The towel of claim 10, further comprising an opening extending through the  
2              towel.
- 1       18.     The towel of claim 17, further comprising a reinforcer to support the opening.
- 1       19.     The towel of claim 18, wherein the reinforcer is a grommet.
- 1       20.     The towel of claim 17, further comprising an attachment means inserted  
2              through the opening for fastening the towel.
- 1       21.     The towel of claim 20, wherein the attachment means is a carabiner.
- 1       22.     A multi-functional towel comprising:  
2              means for absorbing moisture from a surface of an object;  
3              means for polishing the surface of the object; and  
4              means for scrubbing the surface of the object.
